

**RURAL WATER DISTRICT NO.2
ROGERS COUNTY, OKLAHOMA
P.O. BOX 211
CLAREMORE, OK 74018**

CONVENTIONAL SEPTIC SYSTEMS

The property located at _____ will have a conventional septic system.

The Rural Water District No. 2 Policy concerning conventional sewage disposal systems:

- A. Prior to installation of a meter set for any Benefit Unit as approved percolation test must be conducted and a copy of results on file in the District office.
- B. Not more than thirty (30) days after the installation of a temporary set, the District office must receive the approved Sewage Disposal Report conducted by the appropriate County Health Department.

Failure to comply with this policy will result in the discontinuance of water service until such time as this report is received in the District #2 office.

Any meter installation where, by state law, a sewage system is not required (example: stock watering) will be considered exempt from the above policy until such time as the intended use of the installation changes.

I, _____, applicant for Benefit Unit # _____ in Rural Water District No. 2, Rogers County, Oklahoma, have read, understand and will comply with District Policy concerning sewage disposal systems.
